PROFESSIONAL PROFILE

Flutter and Python developer with 2+ years of professional experience delivering production-grade mobile applications, REST APIs, and full-stack web systems. Proven ability to ship end-to-end — from database design and backend engineering to cross-platform Flutter UI — across government, finance, and enterprise domains. Currently based in Ahmedabad, India; open to remote full-time roles.

PROFESSIONAL EXPERIENCE

Software Developer — Freelance Contract — Apr 2026 – Sep 2026
Technowire Data Science — *Ahmedabad, India*

- Delivered **5 full-stack web applications** for a data science consultancy, working across React, Node.js, FastAPI, PostgreSQL, and Electron.
- Engineered a **DIR-12 corporate compliance portal** with a 6-step guided form workflow, PDF report generation, admin review dashboard, and MCA API integration using Node.js, Prisma, and PostgreSQL.
- Built a **real-time stock trading dashboard** with WebSocket-based live tick streaming, 10+ configurable technical indicators (EMA, Supertrend, RSI, MACD), and broker API integrations for Zerodha and Dhan.

Python Developer — Jun 2024 – Nov 2025
Enercomp Solution — *Ahmedabad, India*

- Maintained and enhanced the company's internal web platform, ensuring reliable access for **100+ employees** across the organisation.
- Led backend development for Phase 2 of the **Maharashtra State Land Record Portal**, built in direct collaboration with the **state Land Minister's office**; enabled statewide digital land registration with geo-location, boundary mapping, and photographic documentation.
- Designed and implemented the government-facing approval workflow used by state officials to review, verify, and process land registration submissions from farmers across Maharashtra.

Mobile Application Developer — Dec 2023 – May 2024
TOPS Technology — *Ahmedabad, India*

- Developed features, integrated third-party REST APIs, and resolved bugs across multiple client-facing Flutter and Android projects spanning diverse industry domains.
- Built core modules for *Digital Society* — a Flutter/Firebase community management platform adopted by **500+ residential societies in Ahmedabad** — covering member management, notice boards, events, and complaint resolution.
- Maintained client applications through full project lifecycles, delivering iterative UI improvements and technical support against agreed timelines.

EDUCATION

GLS University — Ahmedabad, India
Bachelor of Science in Information Technology — 2017 – 2020
CGPA: **8.3 / 10**

PROJECTS

Personal Finance Intelligence | Flutter, FastAPI, PostgreSQL, Redis, AI — 2026

- Engineered a full-stack personal finance platform with a Flutter front-end, FastAPI/PostgreSQL backend, Redis caching, and Celery background workers.
- Integrated a conversational AI assistant (GPT-4/Gemini) for financial insights; built CSV bank statement import with duplicate detection, automated transaction categorisation, and a budget analytics dashboard.

Cricket Scoreboard | Flutter, SQLite — Freelance — Jul 2026

- Built an offline-first Flutter scoring app supporting T10, T20, ODI, The Hundred, Test matches, series, and tournaments with full SQLite persistence.
- Implemented complex domain logic including follow-on rules, NRR calculation, strike rotation, extras, and partnership tracking; deployed for a client and actively used by college students for live match scoring.

Your Journal | Flutter, Python, SQLite, AI — Freelance — Apr 2026

- Delivered a cross-platform Flutter journaling app with Python backend and SQLite storage; adopted by multiple college students following client delivery.
- Integrated an AI-powered time-waste analyser that identifies unproductive patterns in journal entries and generates personalised time management insights.

Money Tracker | Flutter, Python, Firebase, AI — Freelance — Jan 2026

- Developed a Flutter/Firebase personal finance app with AI-powered expense analysis; adopted by multiple clients for daily expense tracking.

- Built an intelligent spend analyser that identifies wasteful spending patterns and recommends redirecting funds toward productive investments.

Digital Society | Flutter, Firebase Apr 2024

- Community management platform serving **500+ residential societies across Ahmedabad**, with real-time notices, event management, and complaint resolution.
- Implemented a committee-facing admin dashboard for reviewing and actioning resident submissions.

TECHNICAL SKILLS

Languages:	Python, Dart, JavaScript, TypeScript, Java, SQL
Mobile:	Flutter, Android (Kotlin), Riverpod, REST API integration
Backend:	Django, Django REST Framework, FastAPI, Node.js, Express
Databases:	PostgreSQL, Firebase Firestore, SQLite, Redis
Cloud & Tools:	Firebase, AWS, Docker, Git, GitHub, Android Studio, VS Code

CERTIFICATIONS

- Machine Learning & Neural Networks — Google, Nirma University

ACHIEVEMENTS

- **1st Place** — Rally Coding Competition, Shri Chimanbhai Patel Institute of Management and Research
