TOPS Technology, Ahmedabad

- Contributed to numerous client projects, supporting both development and maintenance tasks.
- Maintained and improved company applications, ensuring stable performance for end-users.
- Handled ongoing updates and technical support for employee-facing applications.

PROJECTS

Your Journal Application | Flutter/Python Development

April 2026

- Developed a cross-platform digital journaling application with offline local storage for secure and private daily journal management.
- Implemented mood-based journaling, built-in calendar integration, fullscreen writing mode, search functionality, and journal editing features for enhanced user experience.

Money Tracker Application | Flutter/Python Development

January 2026

- Developed a personal finance management application to track income, expenses, investments, and overall financial growth.
- Implemented investment portfolio tracking with Return on Investment calculations, category-wise expense management, and financial analytics dashboard.

POS Application | Flutter/Python Development

May 2025

- Developed a Point-of-Sale (POS) system to streamline product billing and inventory management.
- Implemented product categorization, user authentication, and real-time sales analytics dashboard.

E-Commerce Application | Flutter/Python Development

March 2025

- Designed and developed a feature-rich shoe shopping app.
- Integrated real-time order tracking and customer feedback.

Digital Society | Flutter Development

April 2024

- Developed a platform for tracking society members, notices, and events.
- Facilitates complaint management and feedback for committee members.

Messaging App | Flutter Development

March 2024

- Built a messaging app to connect users.
- Users can post photos and connect with other users.

Sportify Application | Android Development

March 2020

- University project to track and follow different sports.
- Includes player statistics analysis, tracking top scorers.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, SQL, NoSQL, R, XML, Dart

Developer Tools: VS Code, Android Studio, TurboC++, PythonIDLE

Technologies/Frameworks: GitHub, Git, Firebase, Flutter, Django, AWS

CERTIFICATIONS

- Machine Learning And Neural Networking By Google at Nirma University
- English and Public Speaking Certification at Dipti Shah's Institution
- Certification In Tally ERP9 of C-DAC,GIST

ACHIEVEMENTS

- 1st position in rally coding organised by Shri Chimanbhai Patel Institute of Management and Research
- 2nd position in debugging organised by Shri Chimanbhai Patel Institute of Management and Research
